

# C-STORE

## SEGMENT PRODUCTS

C-Stores today are one of the most rapidly evolving businesses that exist. It wasn't so many years ago that we had gas stations on every corner and small mom & pop stores in every neighborhood. Cars became too complicated for the corner garage. Mega-supermarkets started to evolve and made it impossible for the mom & pop operation to survive. Double income families became the norm and urban sprawl went into over-drive. With these developments came the window of opportunity for C-Stores to evolve as we know them today.

Today the state of the art C-Store is increasingly becoming a regional foodservice chain. They offer made to order sandwiches, fresh food, and fast service combined with the allure and convenience of the one stop shop that spawned the growth of mega supermarkets.

Bakery, beverages, pizza and a vast array of food items typically offered by quick serve restaurant chains are the trend. Commissary operations provide efficiency and consistency of food products. Cutting edge marketing attracts new customers. Pick up lunch to eat at the office and pick up dinner on the way home. It all happens at today's C-Store.

McNairn Packaging offers a variety of packaging products from quick-serve wraps to commissary pre-packaging materials that will help you lead the way in the C-Store Market.

### WINDOW SANDWICH BAG

Window sandwich bags are now available in 2 styles! Our first is traditional style with a window in the middle of the face of the natural kraft bag. The second is our NEW "Fresh & Clear™" window bag that covers a portion of the face of the bag and one half of the full side panel or gusset. This arrangement of material creates a 3 dimensional view of your product and allows a wider space on the face of the bag for branding. This provides a great vehicle for your grab and go offering. In addition, we have developed a "Fresh & Clear Plus™" bag where the window material is made from compostable and biodegradable PLA material (where adequate facilities exist) to help build your green score and do the right thing.
